

Permanent Garden Centers

Triangular Truss Shade System

- Engineered for 80 mph wind loads
- Aluminum Trusses
- All Steel Components, Galvanized posts, mounting brackets & outserts
- Enduro Shade panels & springs for attachment Springs allow easy attachment or removal for winter storage. Springs allow the panels to breakaway under excessive wind or snow loads that could possibly damage the system.

Warren Truss Shade System

- Aluminum Trusses, Mounting Brackets, Lace Bars and Cross Bracing
- Galvanized Steel Columns
- Enduro 63% Shade Panels and Lace Cord for attachment
- Truss design allows for increased column spacing over conventional pipe frame type systems (30' max)

Retractable Shade System

- Aluminum Trusses
- All Steel Components, Galvanized posts, mounting brackets & outserts
- Enduro Shade panels and Snap Hooks for sliding shade cloth along cable
- Shade Panels can be retracted and secured during snow or ice to avoid damage to the system
